

GASCalc™ Training Class

Title: Introduction To GASCalc 4.0

Level: Basic/Beginner

Industry Sector: Gas Distribution Systems

Duration: Approximately 1.5 days

This course is intended for the, occasional, or regular User of the GASCalc software. The course will cover an introduction to the routines and features available in the latest version of the GASCalc software, with an emphasis on distribution style piping systems.

The course consists of both classroom and extensive hands-on training, allowing the student to gain an understanding of both the concepts and functional operation of performing calculations using the GASCalc software. Topics to be covered will include:

- An introductory review of applicable functions and features found in the latest version of the software.
- Students will work through several calculation examples including:
 - Gas Properties
 - Atmospheric Pressure
 - Pressure Factors
 - Pipe Sizing
 - Steel & Plastic Pipe Design Formula
 - Hoop Stress
 - Blowdown Time
 - External Loading
 - Thermal Expansion
 - Regulator Station Overpressure Protection - Monitors & Relief Valves
 - Gas Loss From Damage
 - Unit/Energy Conversions
- Working with the various property tables.
- Student suggested topics and example models.

The class is intended for beginning to moderately experienced users. Attendees should have a basic understanding of using Windows based software applications. Although general system design and operation topics will be discussed during the course, the course itself is not intended to provide detailed training in these topics. The attendee should have a basic understanding of the operation and design of natural gas piping systems.

Students are encouraged to bring example models/problems. A portion of the class time will be set aside for working with student examples and specific topics of interest.

Registration Form

To register, please complete the following form and return the completed form by email, mail, or fax.

Course Selection (Select One Only)...

- Basic GASWorkS For Distribution Systems - \$495
- Basic GASWorkS For Transmission & Gathering Systems - \$495
- Basic GASWorkS For Gas Piping Systems - \$495
- Basic GASCalc & GASWorkS For Gas Piping Systems - \$695
- Basic GASCalc For Distribution Systems - \$395
- Basic GASCalc For Transmission & Gathering Systems - \$395
- Basic StationManager - \$495
- Basic GASWorkS US Design Module - \$495
- Advanced GASWorkS - \$495

Course Date:

*** Registration is contingent upon available space - *do not* make travel arrangements until your registration has been confirmed.
