

GASWorkS™ Training Class

Title: Advanced Topics For GASWorkS 9.0

Level: Advanced/Experienced

Industry Sector: All System Types

Duration: Approximately 1.5 days

This course is intended for the experienced User of the GASWorkS software. The course will cover a an in-depth review of all of the routines and features available in the latest version of the GASWorkS software, with no particular emphasis on piping system type - a variety of piping systems will be worked with during the course.

The course consists of both classroom and extensive hands-on training, allowing the student to gain an understanding of both the concepts and functional operation of performing network analysis and using the GASWorkS software. Topics to be covered will include:

- A detailed review of all of the functionality and features found in the latest version of the software.
- Students will work through several examples including development of models of a variety of distribution, transmission, gathering, and plant piping systems.
- Discussion of tips and tricks.
- Working with attribute data files.
- Working with external data including GIS, spreadsheet, and database sources.
- Using little known features of software.
- Troubleshooting model issues including solution, display, and printing topics.
- An in depth review of the pipe sizing features.
- An in depth review of working with the property tables.
- Student suggested topics and example models.

The class is intended for moderately experienced users. Attendees should have an excellent understanding of using the Windows operating system and Windows based software applications, a good understanding of using the GASWorkS software, and a good understanding of the operation and design of natural gas piping systems.

Students are encouraged to bring example models/problems. A portion of the class time will be set aside for working with student examples and specific topics of interest.

Registration Form

To register, please complete the following form and return the completed form by email, mail, or fax.

Course Selection (Select One Only)...

- Basic GASWorkS For Distribution Systems - \$495
- Basic GASWorkS For Transmission & Gathering Systems - \$495
- Basic GASWorkS For Gas Piping Systems - \$495
- Basic GASCalc & GASWorkS For Gas Piping Systems - \$695
- Basic GASCalc For Distribution Systems - \$395
- Basic GASCalc For Transmission & Gathering Systems - \$395
- Basic StationManager - \$495
- Basic GASWorkS US Design Module - \$495
- Advanced GASWorkS - \$495

Course Date:

*** Registration is contingent upon available space - *do not* make travel arrangements until your registration has been confirmed.
