

GASWorkS™ Training Class

Title: Introduction To GASWorkS 9.0

Level: Basic/Beginner

Industry Sector: Natural Gas Transmission & Gathering

Duration: Approximately 1.5 days

This course is intended for the new or occasional User of the GASWorkS software. The course will cover an introduction to network behavior, network modeling, and the use of the latest version of the GASWorkS software, with an emphasis on working with natural gas transmission and gathering style systems.

The course consists of both classroom and extensive hands-on training, allowing the student to gain an understanding of both the concepts and functional operation of performing network analysis and using the GASWorkS software. Topics to be covered will include:

- A review of modeling basics, terminology, and methods.
- A review of the functionality and features found in the latest version of the software.
- Students will work through several examples including development of models of various transmission and gathering systems.
- Model calibration and verification.
- Reporting, printing, and plotting.
- Use of background images.
- The use of the import and export routines.
- Working with the gas properties and mixing features.
- Student suggested topics and example models.

The class is intended for new to moderately experienced users. Attendees should have a good understanding of using Windows based software applications. Although general system design and operation topics will be discussed during the course, the course itself is not intended to provide detailed training in these topics. The attendee should have a basic understanding of the operation and design of natural gas piping systems.

Students are encouraged to bring example models/problems. A portion of the class time will be set aside for working with student examples and specific topics of interest.

Registration Form

To register, please complete the following form and return the completed form by email, mail, or fax.

Course Selection (Select One Only)...

- Basic GASWorkS For Distribution Systems - \$495
- Basic GASWorkS For Transmission & Gathering Systems - \$495
- Basic GASWorkS For Gas Piping Systems - \$495
- Basic GASCalc & GASWorkS For Gas Piping Systems - \$695
- Basic GASCalc For Distribution Systems - \$395
- Basic GASCalc For Transmission & Gathering Systems - \$395
- Basic StationManager - \$495
- Basic GASWorkS US Design Module - \$495
- Advanced GASWorkS - \$495

Course Date:

*** Registration is contingent upon available space - *do not* make travel arrangements until your registration has been confirmed.
